MID-TERM EXAMINATION

(Programme: B. Tech (ECE/ ECE-AI/ MAC) (Semester: II)

(March 2026) OFF LINE mode

Subject Code:BAI 102	
Time : 1 ½Hours	**Subject: IT Workshop**
	Maximum Marks :30

Note: Q1 is compulsory. Attempt any two parts of Q2 and Q3

Q1		**(2.5*4=10)**	**CO Mapping**
	a) What are the features of R- programming language?	2.5	CO1
	b) How R- language is used as calculator?	2.5	CO1
	c) Write and explain some of the most common syntaxes in R-programming?	2.5	CO2
	d) Write a short notes on built in functions in R programming?	2.5	CO2
	UNIT I		**CO Mapping**
Q2	**Attempt any two parts**	**(5*2=10)**	
	a) Define the list. How to create list and access the list elements from the list in R programming. Give an example?	5	CO1
	b) Explain array object in R programming with an example.	5	CO1
	c) What are the data types used in R- programming and give an example for each data type?	5	CO1
	UNIT II		**CO Mapping**
Q3	**Attempt any two parts**	**(5*2=10)**	
	a) Write R program to demonstrate working with operators (arithmetic, logical, relational and assignment operators).	5	CO2
	b) Explain data structures in R- programming with an example.	5	CO2
	c) Explain about vector operations in R programming with an examples.	5	CO2
