(Please write your Enrollment Number) Enrollment No. 01501012021

MID-TERM EXAMINATION
(Course Name: B.Tech. IT/ECE/CSE) (Semester: 6th)
(February-March, 2024) OFF-LINE mode

Subject Code: BIT-304	Subject: Cloud Computing
Time : 1 ½Hours	Maximum Marks : 30
Note: Q. 1 is compulsory.	

Q1	Describe the following terms and technologies using suitable illustrations.	(2.5*4)	
	(a) Virtual Provisioning		
	(b) Peer-to-Peer Computing		
	(c) Software Isolation		
	(d) Virtual Storage Containers		
Q2	**(Attempt any Two Parts) UNIT-1**	(5,5)	
	(a) In a hyperconnected cloud-enabled IGDTUW environment, suggest a suitable Cloud Computing Architecture based on Load Balancing for the IGDTUW Examination portal from the student's perspective.		
	(b) Categorically differentiate between Cloud and Grid Computing frameworks. Describe the advantages and challenges of Grid Computing.		
	(c) Design a hybrid cloud deployment model for the "IGDTUW Taarangana" portal from the frontend perspective. Incorporate the scalability and security compliance factors in the designed architecture.		
Q3	**(Attempt any Two Parts) UNIT-2**	(5,5)	
	(a) Regarding the Virtualization Reference Model, discuss the salient characteristics of the Virtualization Layer along with a detailed reference model. Highlight the advantages of virtualization and mention the limitations.		
	(b) With reference to Infrastructure-as-a-Service in the Cloud Cube Model, discuss the significance of the Vendor Lock-In problem and its Operational Limitations with suitable illustrations.		
	(c) Regarding the Linthicum Deployment Model, discuss the significance of Process-as-a-Service and Security-as-a-Service with suitable illustrations. Discuss the Cloud Security characteristics associated with Jericho Forum Cloud Cube and Linthicum cloud deployment models.
