	UNIT I		CO Mapping
Q2	"Professional ethics and human values are highly relevant in today's environment of workplace conflicts and stress." Support this statement by citing examples of a company that actively promotes work-life balance and fosters ethical practices to create a harmonious professional environment.	(10)	1
Q3.	**Read the case carefully** Shreya is a senior accountant at a mid-sized manufacturing company. She has been with the company for five years and is highly regarded for her meticulous work and dedication. Recently, she noticed some discrepancies in the financial statements that could indicate potential fraud. The irregularities involve overstating revenue in order to meet quarterly targets, which would make the company's performance look better to investors. She faces a difficult choice. On one hand, she feels obligated to report these irregularities to higher management or external auditors, as ignoring them could lead to severe consequences for the company, employees, and shareholders. On the other hand, she fears retaliation, job loss, and damage to her career if she brings the issue to light, especially since the company's CFO seems to be involved in the fraudulent activity. **Answer the following-** 1. What should Shreya do in this situation? Should she report the irregularities, and if so, to whom? 2. How can She protect herself if she decides to report the fraud? 3. What role does the company's culture play in how She perceives her options? 4. How might this situation have been prevented with better corporate governance and internal controls?	(10)	1

	UNIT II		**CO Mapping**
Q4.	Discuss Carol Gilligan's Theory of Moral Development.	(10)	2
Q5	How can engineers ensure that their professional decisions align with ethical principles and promote societal well-being?	(10)	2
