MID-TERM EXAMINATION
(B.Tech CSE-AI/ECE-AI/AI &ML)
1st semester (January, 2023)
OFF LINE mode

Subject Code: BAI-101	Subject: Intelligent Systems

Time : 1 ½Hours | Maximum Marks : 30

Q1 Attempt all Parts (2.5*4)

(a) Formalize these sentences into propositional logic
i) If you exercise and you take healthy drink, you'll become champion.
ii) If you exercise and don't take healthy drink you won't become champion.
iii) Thus, if you exercise, either you take healthy drink and you'll become champion, oryou don't take healthy drink and you won't become champion.

(b) Explain the Structure of an Agent.

(c)What is Pattern Recognition? Discuss different phases in it?

(d)Discuss any two intelligent applications along with their intelligent features which youwould like to design for your University to improve its day to day functionality.

Q2 (Attempt any Two Parts) (5,5)

(a)What is Knowledge Representation? Discuss various approaches and strategies of Knowledge representation.

(b) What are Inference Rules? Elaborate various rules of Inference.

(C) What do you mean by Reasoning in Intelligent Systems? Explain various types of reasoning with example.

Q3 (Attempt any Two Parts) (5,5)

(a) What are the different types of Data? Give examples for each type.

(b) Explain the importance of Data in Machine Learning. What are the five V's related to the Data?

(C) What is the role of training, testing and validation in machine learning?
